

How to: Use the Newsstand

The best resource for finding current events articles is the **Newsstand**.

This site has many resources available for you to look at and explore but your goal is to find a current events article that relates to our topic during the given week.

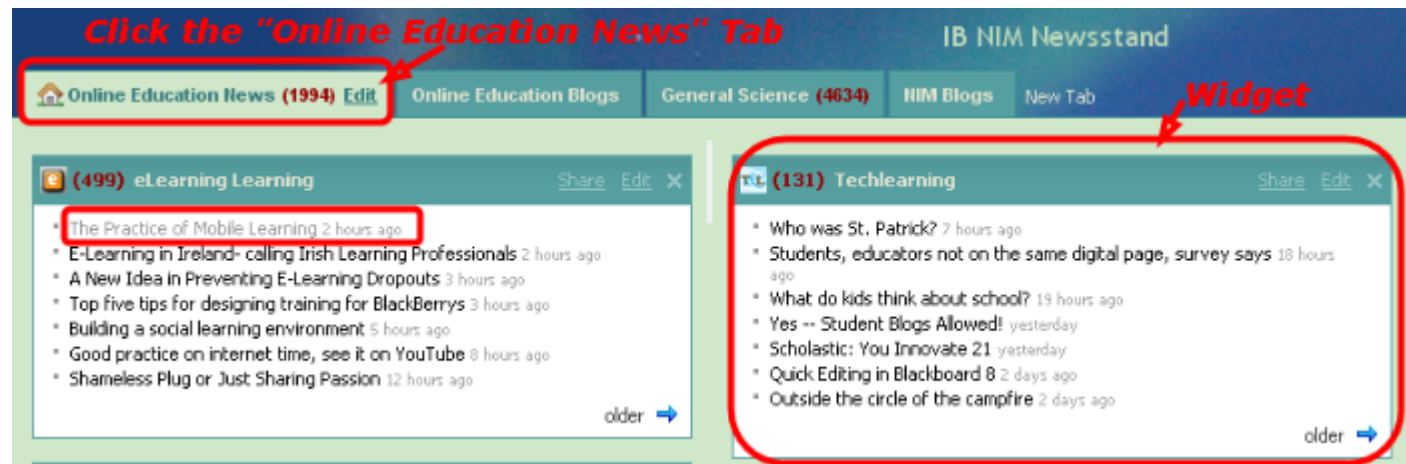

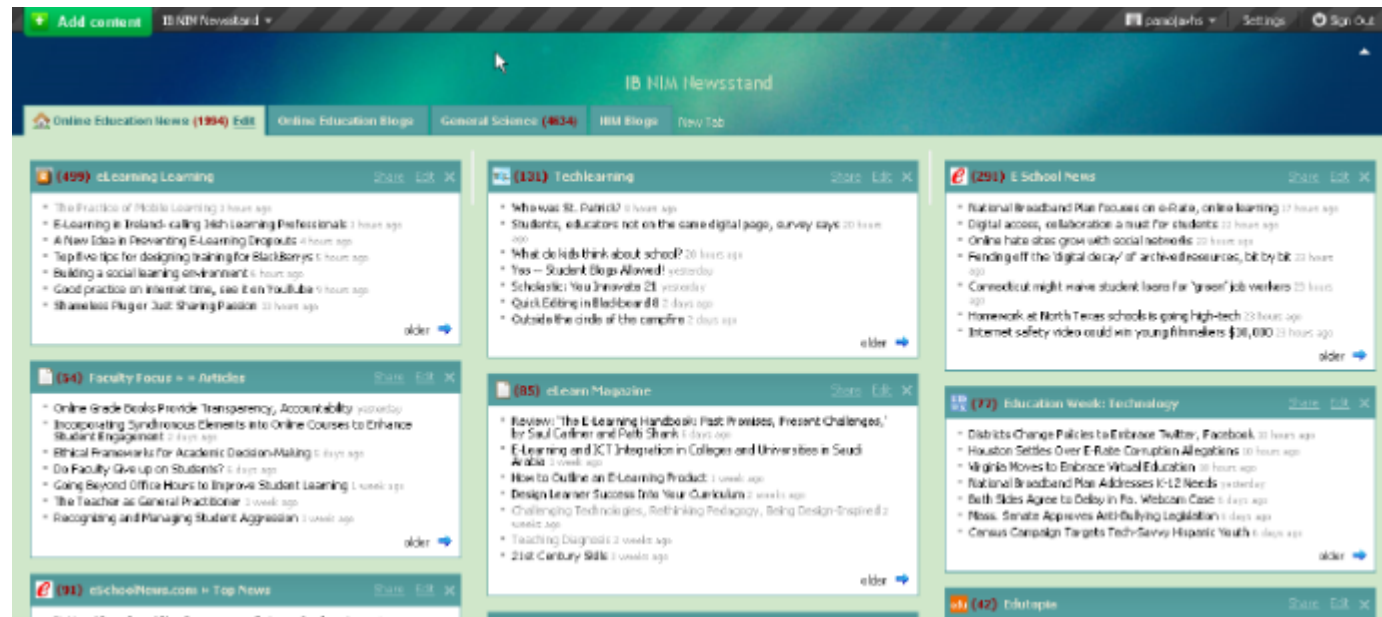

The Newsstand is linked in the course Nav Bar.

Click on the link to travel to the Newsstand

Click the "Online Education News" Tab or "Online Education Blogs" Tab.

The page is filled with "widgets" from different journals, newspapers and magazines.

Each widget is filled with links to the most current

articles and resources
available at those sites.

Click the link to a resource
and a new tab/window will
open with a copy of the
article or resource available
for you to read.
